We are proud to present our Tendencies 2018 collection - an inspiring mix of new, timeless must-haves and redesigns of old classics that will set the trend for the coming year.

We have played with material surfaces and textures making both our new designs and the catalogue itself a joy for your fingers to touch.

We have worked with a sculptural theme to create new products with an attitude. A highlight is our new line of lighting that stands out in a crowd while adding cosy lighting to the room.

We want to make the small details matter. Our classic display cabinets have been redesigned with small, exclusive details such as brass handles as well as legs to add a light and airy look.

We invite you to explore and enjoy our new collection, and we welcome you to a new and inspiring year in 2018.
